Ditya Maurya

Healthcare Revenue Cycle Professional | MSc Business Analytics Student | SQL, Python & BI | Learning Big Data & AI
Dublin, County Dublin, Ireland

Summary

Senior Revenue Cycle Associate and MSc Business Analytics Student at the National College of Ireland (NCI) with 4+ years of hands-on experience managing high-volume U.S. Healthcare Revenue Cycle Management (RCM) workflows. Specialized in navigating complex payer policies, mitigating financial leakage, and resolving high-dollar medical denials while maintaining strict HIPAA compliance and data security standards. Core expertise includes end-to-end billing execution, claims auditing, and complex denial resolution across enterprise platforms including Epic, Cerner, athenahealth, Waystar, and Availity. Daily responsibilities involved navigating complex payer policies, tracking aging accounts receivable, resolving high-dollar medical denials, and maintaining strict HIPAA compliance and data security standards. Currently pursuing an MSc in Business Analytics to integrate U.S. healthcare billing domain knowledge and X12 EDI electronic transactions with modern database and intelligence workflows. Technical coursework and skill development focus on relational databases using SQL, data manipulation with Python (Pandas and NumPy), and business intelligence reporting through Power BI and Tableau, alongside data modeling, statistical analysis and AI. Open to professional networking with Healthcare IT teams, global consulting firms, and analytics managers across Ireland to explore opportunities in data and healthcare business analytics.

Experience

Accurio

Senior Associate

December 2025 - August 2026 (9 months)

India

Lincare – U.S. Healthcare DME & Respiratory RCM Project

Worked on the Lincare U.S. healthcare RCM project, supporting billing, credit balance, reconciliation, and payment-related processes.

- Worked with IBM i (AS/400) for healthcare billing and account-related processes.
